

NORTHWEST ARKANSAS BEEKEEPERS ASSOCIATION

2024

Attention Members;

One important role of NWA Beekeepers Association is to “bring together people with an interest in honeybees and to assist them in the craft of beekeeping.”

If you are committed to becoming a beekeeper or have bees now and feel you need assistance from a mentor you are invited to participate in our mentoring program.

Please supply the following information:

Name: _____

Street Address: _____

City _____ State _____ Zip _____

Phone # _____

Email address: _____

Several experienced members of our club have volunteered to mentor this year. As a mentee, we will pair you with a mentor located relatively close to you. We will notify you with the name and contact info of your mentor once this has been done.

Give us a brief idea of your level of experience with beekeeping and details of any special circumstances:

Thank you! Mentoring and Apprenticeship Committee
